SCOTTISH GENEALOGIST

Index Volumes 1-58 1953-2011

INTRODUCTION

Over the existence of the Scottish Genealogy Society indexes to the Scottish Genealogist have been published at regular intervals and distributed to those who were members of the Society at the time of publication.

The index to the first 28 volumes was one large index with no sub-divisions.

As a great number of queries were published it was decided to include these in a section of their own from volume 29 onwards.

From volume 41 the index was split into the following sections: General index; Article Titles; Contributors; Reviews; Work in Progress; Queries.

A separate section for Illustrations was included in the index for volumes 45-52.

NUMBERING

There has not been uniformity in the numbering format used by the different compilers of the indexes. A volume covers one year during which 4 journals were issued usually in March, June, September and December. In the current index these have been harmonised to follow the most commonly used pattern:

Volume number - Roman numerals capitals

Journal number - Roman numerals lower case

Page number - Arabic numerals

Example:

XXXIX.iv.116 -Volume 39, December issue, page 116.

Page numbering

Page numbering in the journals has not been consistent over the years. For the majority of volumes the page number begins with page 1 in the March issue and continues consecutively until the last page in the December issue for any given year.

Some years however each issue of the quarterly journal starts at page

1. Journals for 1985-1987 number consecutively from page 1 – 415

FORMAT

In 1987 the Scottish Genealogist changed to an A5 format commencing with volume 34.

COVERS

Originally the Journal had a grey cover. Starting with volume XLII.ii. the cover was changed to blue card as the Society discovered that they were being charged a premium for the cover as grey card was difficult to source. In 2002 the Society moved to a glossy, full colour cover. From volume LI.ii. illustrations were introduced on the back cover.

INDEX SUB-DIVISIONS

Article titles - these cover all volumes.

Contributors / Authors - these currently cover volumes 28-52. In early volumes Contributors / authors are to be found in the General Index.

General Index - In earlier volumes this includes all information that was sub-divided in later indexes.

Illustrations - cover all volumes and include pictures, charts, graphs and family trees.

Obituaries - cover all volumes.

Queries - these were relatively easy to extract and the Queries section contain all of the queries.

Reviews - these cover the volumes 40-58. In early volumes reviews are to be found in the General Index.

Work in Progress - This feature only ran for six years from volume 42-47.
